By screening a human fetal cDNA library we isolated a clone which contains a cDNA that is homologous to the second of two known homologues of the Drosophila raf gene. This gene is highly expressed in adult lung and in foetal lung. A comparison of the sequence of the cDNA with the genomic sequences of the two known genes revealed that the cDNA contains the complete coding sequence, but not an untranslated 5' sequence. Markup Assist has been updated to include better settings for marking up a drawing. Use the new Scale factor setting to adjust the size of markers on the drawing canvas. You can now also scale the pointer to fit the size of your drawing. See a demonstration of new features in AutoCAD 2023. (video: 1:33 min.) CAD Key CAD Key: Now your drawings can be automatically shared to the cloud. A new feature, CAD Key, provides all the benefits of key-controlled drawings in the cloud. A new "Default Settings" menu entry gives you control over the default settings for keyed drawings, including the name, description and default color. You can also create a new key as an empty key or an existing drawing. (video: 3:45 min.) PDF Export: Generate PDF exports directly from your drawings. Easily export your designs to PDFs, including the latest PDF 1.5 features, without the need for an extra component. (video: 1:55 min.) Convert OLE Links: Save time by converting OLE links to BMP, JPG, PNG or DNG images, and then export them directly to the cloud, cloud-ready format. (video: 3:04 min.) Cloud-Ready Format and Cloud Link AutoCAD has added a new cloud-ready export format for BMP, JPG, PNG and DNG image formats. You can also set the cloud link for your new file to "Link with Files Cloud" to share it with a link in the cloud. If you also want to add the ability to share links to a Drawing Cloud, you can add that functionality by selecting it from the new link type options. (video: 1:49 min.) CAD Cloud Link: Use the new "CAD Cloud Link" to share links to drawings in the cloud. Copy a CAD Cloud Link to a drawing to share the link to the cloud with others who need to see the drawing. You can also share a cloud link to an existing drawing. (video: 3:04 min.) New commands to share links to drawings in the cloud: When you want to share links to a drawing or drawing cloud in the cloud, you can now create a cloud link to a drawing or drawing cloud.
