Professional Video Editors With Movavi video editing software, you can edit and create video for every need. No matter if you're filming a student project or your family's vacation, Movavi video editing can be set up and ready to edit a single clip in minutes. This video editing software allows you to manipulate your videos quickly to create everything from the traditional short-form viewing format to short video clips that can live on websites and social networks. Fast Video Editing When it comes to speed, you'll appreciate the ability to make edits very quickly. You can trim, split, join, and rotate video clips in just a few quick clicks, and you'll appreciate being able to see your progress on-screen while you're editing. With many video editing apps, you may have to pause or return to a previous menu before you can do anything. That's not the case with Movavi's video editor. Import Video From Many Sources Movavi allows you to import video from a variety of sources, whether you're importing a video file that you shot on your webcam or you're uploading one from your favorite video sharing website. From there, you can trim, cut, or combine video clips with just a few clicks. You can also add music and transitions to your project to give it a professional finish. Multipurpose Video Editor Because Movavi is a video editing app, you can use it to edit all the videos you need: you can create a new file, edit an existing file, combine two files into one, create a slideshow, or create a short video. It's all right here in one package, so if you need to trim a video, cut out a portion, and join two clips into one, you'll have all the tools you need right at your fingertips. You can also trim, split, edit, and combine audio files so that you can make a complete professional sound recording. // Copyright (c) 2019 Google LLC // // Licensed under the Apache License, Version 2.0 (the "License"); // you may not use this file except in compliance with the License. // You may obtain a copy of the License at // // // // Unless required by applicable law or agreed to in writing, software // distributed under the License is distributed on an "AS IS" BASIS, //
